**Re: Sanitary Sewer Utilities Will-Serve Letter Request
University Center Phase 2 Addition and Renovation ("The Project")
Seton Hall University
400 South Orange Avenue
Block 901 – Lot 3
South Orange Village, Essex County, New Jersey
Langan Project No. 100898001**

Mr. Dowhan:

As part of the municipal approval process, we are required to provide proof of utility service availability. Please let this letter serve as a request for confirmation of availability of sanitary sewage treatment for the University Center Phase 2 Addition and Renovation at Seton Hall University. The proposed development will consist of selective demolition, addition and renovation of portions of the existing University Center building, including associated site and utility infrastructure. The project is anticipated to have limited impact to the sanitary discharge from the building.

Please kindly provide a "will-serve" letter confirming the availability of sanitary (or combined) sewer for the above-referenced project.

Your attention to this matter is greatly appreciated. If you have any questions, or require any additional information, please feel free to contact me at (973) 560-4554, or by email at jdigiacinto@langan.com.

Sincerely,
Langan Engineering and Environmental Services, Inc.

John E. DiGiacinto, P.E.
Senior Project Manager
